The practicability of securing a continuation of the Norfolk and Western railroad from Graham to this place is being discussed by business-men here, many of whom seem to think that with as liberal a subscription from the county as has been twice voted to other companies, the Norfolk and Western management would see their way clear to build and equip the road. HAMPDEN-SIDNEY, Feb. 11.

Fire broke out last night about o'clock in Hampden-Sidney College in the room used by Dr. L. L. Holladay

as a laboratory. Fortunately it was just as the preaching in the Seminary

chapel was over, and a good many per

sons were going to their rooms. The cry of fire was immediately raised, and

students from both institutions and citizens were very quickly at hand with a supply of buckets for carrying water.

The fire was soon put out by chopping

the flooring away and pouring an abun

dant supply of water into the open space. It is supposed that the fire

caught in some way from the

flue that runs up from the chapel

below, though there was no way visible

to show how it caught. It was discov-

ered in a pile of wood in one corner of

the room and near the flue. Under the

room where the fire was discovered is

the chapel, and over it is Union Literary

Hall. The damage was not very great,

but if the fire had been several hours
